**Report No. SAT-01265**

**Friday September 8, 2017**

## **Satellite Policy Branch Information**

### **Space Station Applications Accepted for Filing**

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined that the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions, and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

**SAT-MOD-20170905-00127**    E S2935    O3b Limited  
Date Filed: 09/05/2017 07:52:16:26300  
Modification

O3b Limited seeks modification of its prior grant of U.S market access to change the configuration of its 12 in-orbit satellites, operating under the authority of the United Kingdom. O3b's current system uses nine active and three spare satellites. O3b seeks to activate one of its existing in-orbit spares so that it may provide service using ten active satellites and have two in-orbit spares. The satellites will continue to operate in the following previously authorized frequency bands: 17.8-18.6 GHz and 18.8-19.3 GHz (space-to-Earth); and 27.6-28.4 GHz and 28.6-29.1 GHz (Earth-to-space). O3b seeks continuation of a waiver of the U.S. Table of Frequency Allocations, section 2.106 of the Commission's rules and of the Commission's Ka-band Plan and of sections 25.145(c), 25.210(i)(1), 25.137(c), and 25.157. O3b also requests a waiver of section 25.114(c).
